

**AMENDMENT CLEAN VERSIONS****AMENDMENTS To the Specification in CLEAN VERSION:**

Clean version of the Abstract of the Disclosure for use in the application:

--

**ABSTRACT OF THE DISCLOSURE**

A method of using an analog sensor variably depressed by only a single human finger to variably control an electronic game, the method including the steps: a) depressing, with the human finger, the analog sensor with varying pressure for variably controlling the electronic game; and b) receiving, through the finger, a user discernable snap-through tactile feedback. Additionally, a second depressing may be applied substantially because of the receiving of the feedback. --
